## **HISTORY**

The Faculty of Arts is one of the earliest founded at BAU. Closely involved in the academic and professional life of Lebanon, the faculty combines a long and distinguished history of educational achievement and forward looking courses. It counts many distinguished graduates who have held ministerial and other high-ranking positions in the Arab World amongst its alumni. Starting with the department of Arabic Language & Literature in 1960, it gradually grew over the years to offer majors in Geography, History, Philosophy, Sociology, Psychology, and English Language & Literature.

Staying attuned to the latest developments in culture, knowledge, research as well as employment requirements, it established the department of French Language & Literature in 2002 in order to be part of a growing francophone environment that offers various job opportunities in Lebanon.

Similarly, in keeping up with the development of professional skills and interdisciplinary studies, a Diploma in Translation and the departments of Mass Communication and Knowledge Management & Informatics were founded in 2002, 2003 and 2005 respectively. More recently, in 2006, the faculty adopted the credit hour system thereby offering its students flexibility in course selection and workload.

The faculty has always maintained high academic standards. Its first graduates in 1964 totaled 46 students from five different countries in comparison to 39,441 students from 44 countries in 2006. This increasing number of students reflects the development, academically and otherwise, of the faculty.

## **MISSION**

The Faculty of Arts executes its vision through the education it offers and the career preparation that caters to the real needs of Lebanon, the region and the international community. Our mission is to:

- address new challenges and responsibilities in a demanding environment where quality is paramount;
- educate for professional life through intellectual challenge and stimulation in a highly contemporary setting;
- offer relevant knowledge honed by transferable skills that are needed in the future;
- graduate responsible, creative, rational, articulate students through the experience of research and practical training;
- enable personal development of individuals;
- develop the mental and physical potentials of students by promoting critical thinking and sustainable learning for life and professional experience in language, literature and translation;
- generate and disseminate knowledge through creative research as well as training and contribute to knowledge both inside the university and in the wider community; and
- provide a relaxed atmosphere in which a liberal education offers diversity within the realms of personal goals and individuality.

## **VISION**

The vision of the Faculty of Arts is to compete among the best in the field by promoting universally accepted humanistic and ethical values, enhancing intellectual inquiry as well as intensifying awareness of human integrity and solidarity.
