Faculty of Dentistry

Dean's Message \

The Faculty of Dentistry was established in 1995 as the ninth faculty ensuring that the training and education given to future dentists equips them with the skills needed for prevention, diagnosis, and treatment of abnormalities related to teeth and associated oral tissues. Our Faculty offers an extraordinary environment in which teaching and learning come together in a way to prepare future dental professionals.

The curriculum is innovative and continuously updated to meet the fast growing technology in the dental field. In this regard, an International Recognition from the Association for Dental Education in Europe (ADEE) was attained by the Faculty. We are committed to provide high quality patient care in the Lebanese community. Our services take place in an ethical and professional environment under the collaboration and supervision of highly qualified and devoted academic staff. At the Faculty of Dentistry, instead of just saying we train doctors, we grow people and along the way, they become doctors.

Academic Policy \ Supporting Your Steps

The Academic Policy helps students understand their rights and responsibilities and successfully complete all required academic tasks.

Academic Advising

Academic Advising is a shared responsibility; it entails a dynamic relationship between the advisor and the student. The advisors are committed to help students make a successful transition to the university and develop an appropriate academic plan. Advising is available to all students before the registration process to assist them in choosing a major, selecting courses, and completing all graduation requirements.

Code of Ethics

The Code of Ethics is designed to establish an environment of honor and trust within the University. BAU's Code of Ethics aims at promoting the growth of ethically responsible students through adherence to the highest standards of academic integrity, ethics, and morals.
